About me

Hi all! I'm Sam, a student pursuing a bachelor's degree in Information and Communication Technology at Häme University of Applied Sciences. I'm currently focused on expanding my skills in cyber security, 3D modeling and building indie games. When I'm not working on a project or school-related stuff, I'm most likely playing video games with my friends, watching some show or movie on Netflix, or if there weather's good, going out for a jog.
